

We have been Making an Impact on Safety for 40 years! Over four decades we have marched ahead, tackling injuries in sports, driving down automotive fatalities and defeating ballistic threats to our soldiers and police officers. Our expertise truly makes a difference, first by understanding the limits of human injury and then by creating systems to make them less likely to happen. We do this by effective product standards, realistic performance specifications and rigorous testing of protective systems that truly deliver the goods. Our name is our bond and you can continue to trust Biokinetics and Associates Ltd. for the next forty years
